

Duo Compact

S080

The DuoSpa boasts two full depth naturally reclining positions and professional hydrotherapy system. The distribution system delivers water to each jet at uniform pressures. Combinations of the latest therapeutic massage jets have been strategically positioned to give various massage effects. Alternative systems include neck and shoulder combinations with lower, middle and upper back, plus leg and foot massage. The optional turbo air injection system adds millions of tiny air bubbles into the water around your body, legs and even under your feet for a more invigorating massage experience.
